Example – calculation of clearing membership fees

A general clearing member is clearing member in the following sections/ranges of transactions: BSE equities section, debt section, and within the derivatives section of BSE equities transactions, financial transactions and BSE commodities section, and MTS market clearing membership.

The amount of clearing membership is HUF 100 000 per month for the equities and / or debt instruments section and / or MTS market membership + HUF 100 000 monthly for the equities and financial transactions of the derivative section and / or commodities section, that is the total clearing membership fee is HUF 200 000 / month.

If the same clearing member has one non-clearing member in the BSE equities section, debt section, and within the derivative section of BSE equities and financial transactions, and has another non-clearing member in BSE equities transactions, the non-clearing membership fee will be as follows.

The amount of non-clearing membership fee is HUF 100 000 monthly for the equities / debt instruments sections + HUF 100 000 monthly for equities and financial transactions within the

derivative section + HUF 100 000 for the other non-clearing member, that is altogether the total non-clearing membership fee is HUF 300 000 / month.

If a non-clearing member of the clearing member is a segregated non-clearing member in the BSE equities range of transactions, furthermore, the clearing member has one segregated client in the equities and/or debt section and also in the derivative market, the sum of the individually segregated non-clearing member and segregated client fee of the clearing member is HUF 150 000 / month.

If the clearing member has MTS market clearing membership only, the clearing membership fee in this case is HUF 100 000 / month.

If the gas market clearing member has clearing membership in the NFKP only.

The clearing membership fee before using the gas market service is the one time entry fee of HUF 1 000 000 and a monthly clearing membership fee of HUF 200 000 during the term of the clearing membership agreement.

If a gas market clearing member has clearing membership in NFKP and the spot markets of CEEGEX, the clearing membership fee is HUF 200 000 / month.

If the gas market clearing member has clearing membership in NFKP and the spot and physical futures markets of CEEGEX also, the clearing membership fee is HUF 400 000 / month.

Example – calculation of tiered fees:

During one calendar year the joint turnover in the day-ahead market and futures transactions with physical settlement of the energy market non-clearing member reaches TWh 0.5, in this case the monthly turnover fee is calculated in line with the applicable tiers:

- Above TWh 1 the turnover fee of each additional contracted and physical delivery MWh is HUF 2,8 / MWh.

Annual turnover: TWh 1,5 (based on day-ahead and futures physical deliveries)

Annual turnover fee (based on monthly invoices):

Up to TWh 0,5: 500.000 MWh × HUF 4,2 /MWh = HUF 2 100 000

From TWh 0.5 up to TWh 1: 500.000 MWh × HUF 3,2 /MWh = HUF 1 600 000

Over TWh 1: 500.000 MWh × HUF 2,8 /MWh = HUF 1 400 000

The turnover of an energy power market non-clearing member reaches TWh 0.5 during the calendar year due to open futures transaction turnover, in this case monthly turnover fee shall be charged in line with the applicable tiers

- from TWh 0.5 up to TWh 1 the turnover fee of each additional contracted open futures position MWh is HUF 1,6 / MWh.
- Above TWh 1 the turnover fee of each additional contracted and physical delivery MWh is HUF 1,4 / MWh.

Annual turnover: TWh 1,5 (based on open positions)

Annual turnover fee (based on monthly invoices):

Up to TWh 0,5: 500.000 MWh × HUF 2,1 /MWh = HUF 1 550 000

From TWh 0.5 up to TWh 1: 500.000 MWh × HUF 1,6 /MWh = HUF 800 000

Over TWh 1: 500.000 MWh × HUF 1,4 /MWh = HUF 700 000
