

Fee Schedule of KELER CCP Ltd.

Board of Directors approval:

Order 9/2022/8. on 14 December 2022

Effective from:

1 January 2023

The English version is for informal use only.
Only the Hungarian version is legally binding.

Principles

KELER CCP Central Counterparty Ltd. (hereinafter: KELER CCP) publishes in this Fee Schedule the fees to be paid for the services offered, the preferences that can be offered and the terms of preferences, and the provisions on fee payment and invoicing.

KELER CCP applies the following pricing principles related to its services; deviation from these principles is not possible:

- The fees of services cover the actual costs of services and support the internal operation of KELER CCP, and allow the development of existing and new services in order to ensure that KELER CCP operates as a reliable, client-focused infrastructure that adjusts flexibly to the changes in the environment.
- The fees are in line with the prevailing regulatory environment.
- In addition to ensuring prudent and regulated operation, KELER CCP makes efforts to meet the profitability expectations of shareholders on an ongoing basis.
- KELER CCP forms services in cooperation with Clients, in line with their needs, and gives Clients the right to give their views on the applicable fees.
- KELER CCP applies a transparent system of preferences, promoting the enforcement of business and market requirements.
- The Board of Directors is competent to approve the Fee Schedule. The Chief Executive Officer of KELER CCP makes a proposal to the Board of Directors.
- When the prices of new services are determined, KELER CCP takes into account, if possible, the publicly known price level in competitive markets and the international markets.

KELER CCP may offer fee reductions to Clients in the following cases:

- Based on the absolute volume of the service(s) used and transactions, in the form of discounts or rebates. The related details are stated in the relevant chapters.
- If KELER CCP introduces new or modified service, the Client participating in the creation, implementation or testing of the service, and/or contracting for the service can be offered fixed period preference ("pilot Client" preference).

If an intermediary (e.g. account manager) is used related to a service offered by KELER CCP to a Client, KELER CCP automatically transfers to the Client the additional costs invoiced to KELER CCP by the intermediary in addition to the cost of the transaction (e.g. interest, fees of items requiring special treatment, etc.).

General provisions

Fees are payable based on the fee invoice issued by KELER CCP until the 5th business day after the subject month. The fee invoice contains the services provided by KELER CCP in the subject month concerned, including collateral management fee, late fees and the part of the default basic fee, the derivative default basic fee and the securities default basic fee due to KELER CCP.

If fees stated by the foreign service providers in foreign currency are passed to the Client, unless otherwise agreed, KELER CCP issues the fee invoice in the original currency. If the invoice is issued in Forint in line with a separate agreement, the MNB foreign exchange rate valid on the date of invoice issuance is used to make the conversion.

The Client has the possibility to request and pay the invoice in foreign currency for fees stated in Forint in this Fee Schedule. The Client is eligible for this service if it concludes with KELER CCP the agreement to this effect until the 15th day of the subject month. For conversion KELER CCP uses the MNB foreign exchange rate valid on the date of invoice issuance.

Unless otherwise agreed with the customer, KELER CCP issues electronic invoice signed with advanced electronic signature on payable fees to the customer. KELER CCP will send the electronic invoice to the customer in the form of a link in e-mail.

The payment date of the invoice is the 10th business day from the date of invoice issue.

Service fees listed in this Fee Schedule are exempt from VAT. Fees where VAT is shown separately are exceptions to this provision.

When determining fees one basis point (bp) equals one hundredth of one percentage point (1 bp = 0.01%).

Default interest

In case of any delay in payment of fees specified in this Fee Schedule and of any receivables of KELER CCP under any title pursuant to the General Business Rules, KELER CCP will charge default interest. The default interest rate is twofold of the prevailing Magyar Nemzeti Bank (MNB) base rate, however minimum 8% p.a.

⁸ Charged to the gas market clearing member that in addition to the market defined in point 8.1.1. of the General Business Rules of KELER CCP, also enters one of the markets specified in point 8.1. of the General Business Rules of KELER CCP. KELER CCP charges the fee for the full period for the broken month also..

Example – calculation of clearing membership fees

A general clearing member is clearing member in the following sections/ranges of transactions: BSE equities section, debt section, equities transactions, financial transactions and BSE Commodities Section within the derivatives section of BSE, and MTS market clearing membership.

The amount of clearing membership is HUF 250,000 per month for the equities and / or debt instruments section and for MTS market membership + HUF 250,000 monthly for the equities and financial transactions of the derivative section and for the Commodities Section, that is the total clearing membership fee is HUF 500,000 / month.

If the same clearing member has one non-clearing member in the BSE equities section, debt section, equities and financial transactions within the derivative section of BSE, and has another non-clearing member in BSE equities transactions, the non-clearing membership fee will be as follows.

The amount of non-clearing membership fee is HUF 150,000 monthly for the equities / debt instruments sections + HUF 150,000 monthly for equities and financial transactions within the derivative section + HUF 150,000 for the other non-clearing member, that is altogether the total non-clearing membership fee is HUF 450,000 / month.

If a non-clearing member of the clearing member is a segregated non-clearing member in the BSE equities range of transactions, furthermore, the clearing member has one segregated client in the equities and/or debt section and also in the derivative market, the sum of the individually segregated non-clearing member and segregated client fee of the clearing member is HUF 30,000 / month.

If the general clearing member has MTS market clearing membership only, the clearing membership fee is HUF 250,000 / month.

An individual clearing member has clearing membership in the following sections/ranges of transactions: BSE equities section, debt section, equities and financial ranges of transactions within the BSE derivatives section and BSE Commodities Section, and MTS market clearing membership

The clearing membership fee is HUF 200,000 monthly for the equities and debt section and the MTS market membership + HUF 200,000 monthly for the equities and financial ranges of transactions of the derivatives section and for the Commodities Section, thus the clearing membership fee is HUF 400,000 per month.

If a clearing member (general or individual) has clearing membership in the BSE Commodities Section only, the clearing membership fee is HUF 100,000 per month.

If the gas market clearing member has Balancing clearing membership only, the clearing membership fee is EUR 775 monthly during the term of the clearing membership agreement.

If a gas market clearing member has CEEGEX clearing membership and Balancing clearing membership, the clearing membership fee is EUR 950 monthly during the term of the clearing membership agreement.

If a gas market clearing member has TP clearing membership and Balancing clearing membership, the clearing membership fee is EUR 950 monthly during the term of the clearing membership agreement.

If a gas market clearing member has both TP and CEEGEX clearing membership, and Balancing clearing membership, the clearing membership fee is EUR 950 / month.

If the gas market clearing member has TP, CEEGEX andHUDEX/Gas clearing membership , and Balancing clearing membership also, the clearing membership fee is EUR 950 / month.

Energy market non-clearing membership

2.	Non-clearing membership service	Fee	KELER CCP GBR	Code
	Energy market non-clearing membership ⁸	EUR 775 / non-clearing member / month / market	9.2.	A11 / A21
	Individual client segregation	EUR 40 / non-clearing member/month	9.10.4.	A92
Notes:				
<p>⁸The non-clearing membership fee is charged to the energy market non-clearing member for the market defined in the table in Point 9.4.1. of the General Business Rules of KELER CCP from the time the contract is approved by KELER CCP. KELER CCP charges the fee for the full period for the broken month also. The Energy market non-clearing member shall be exempted from the payment of the energy market non-clearing membership fee during the period of suspension requested in accordance with Clause 9.8. of the General Business Rules of KELER CCP.</p>				

Example 1 – energy market non-clearing membership fee calculation

An energy market non-clearing member has energy market non-clearing membership in the day-ahead energy market only. The energy market non-clearing membership fee is EUR 775 per month during the term of the non-clearing membership agreement.

Example 2 – energy market non-clearing membership fee calculation

Another energy market non-clearing member has energy market non-clearing membership in the day-ahead and futures markets also. The monthly energy market non-clearing membership fee is 2 × EUR 775, i.e. EUR 1 550 / month.

Spot Market, BSE MTF Market and MTS Market (Multinet market)

3.	Spot Market, BSE MTF Market and MTS Market Services	Fee	KELER CCP General Business Rules	Code
	Multinet transaction^{9,10}		7.12.	
	Up to 250,000 transaction per year	HUF 75 / transaction*		K88/K91
	Between 250,001 and 500,000 transaction	HUF 70 / transaction*		K89/K92
	Above 500,000 transaction	HUF 65 / transaction*		K90/K93
Notes:				
<p>⁹KELER CCP charges the fees for HUF and foreign currency based transactions to both the buyer and the seller.</p> <p>¹⁰ The tiered fee is applied based on the total turnover of the transactions (<i>transaction number</i>) the clearing member made in the calendar year.</p> <p>*KELER CCP Ltd. provides a 75% fee discount for those market makers who join the quotation system of the BUX Futures introduced by the Budapest Stock Exchange. The discount is validated by KELER CCP on a monthly basis until the 15th day of the following month based on the information prescribed by the Budapest Stock Exchange with regards to cash market transactions concluded for hedging in the scope of quotation system. The discounted period is valid until withdrawal.</p>				

Example 1 – Calculation of spot market, BSE MTF market and MTS market fee

A clearing member concludes the following guaranteed regulated market transactions on the same day:

- 16 Buy transactions for OTP equities
- 32 Sell transactions for MOL equities
- 16 Buy transactions for BUXETF
- 32 Sell transactions for government securities
- 10 Buy transactions for corporate bonds

Altogether: 106 transactions.

Fees due: 106 transactions * HUF 75 / transaction = HUF 7,950

Example 2 – Calculation of spot market, BSE MTF market and MTS tiered fee calculation

During the calendar year the turnover (transaction number) of a clearing member exceeds 250,000 transactions with multinet settlement. For the monthly clearing fee calculation each additional new transactions, until the highest tier is reached, is charged a transaction fee of HUF 70 / transaction as stated in Tier 2. If during the calendar year the clearing member turnover exceeds 500,000 transactions, each additional new transaction is charged a transaction fee of HUF 65 / transaction as stated in Tier 3.

The clearing fee of clearing members not reaching 250,000 transactions in the calendar year is HUF 75 / transaction.

Example:

Annual turnover: 750,000 transactions

Annual turnover fee (based on monthly fee invoices):

until 250,000 transactions:	250,000 x HUF 75 = HUF 18,750,000
between 250,001 and 500,000 transactions:	250,000 x HUF 70 = HUF 17,500,000
above 500,000 transactions:	250,000 x HUF 65 = HUF 16,250,000

Derivative market

All transactions that result in closing open positions are position closing. „Day trade” fees are charged for the sell side of transactions of the same type – futures or options - that are made on the same day, based on BSE dealing and are of opposite direction but do not influence open positions.

Example – Calculation of guarantee fee in the derivative market

A general clearing member undertakes the following activity on the BSE in the same invoicing period:

The clearing member concerned has several clients and opens 20 new client position management accounts (PMA) and modifies one client account. The fee of this activity in line with the table below is HUF 8,692.

	PMA	Fee / PMA	Fee payable
Opening position management account (PMA)	20	HUF 424	8,480
Modification of position management account (PMA)	1	HUF 212	212
Total			8,692

In the invoicing period the clearing member is active in various products and concludes transactions for 1,000 – 1,000 contracts for opening, closing and day trade in line with the table below. Transactions were made for 134,000 contracts altogether and the relevant fee payable is HUF 463,880.

	Contract	Fee/contract	Fee payable
Interest contracts			
Position opening	1,000	2.54	2,540

Day trade	1,000	2.94	2,940
Total	18,000		463,880

Example – Tiered fee calculation

During the calendar year the turnover (number of contracts) of a clearing member exceeds 1,500,000 contracts in futures (non-1 week) financial contracts. Each additional new transaction, until the highest tier is reached, is charged 0.3200 bp/contract stated in Tier 2 when the monthly clearing fee is calculated. If during the calendar year the turnover of the clearing member exceeds 3,000,000 contracts, each additional new contract traded is charged 0.3000 bp/contract as stated in Tier 3.

The clearing fee of clearing members not reaching the turnover level of 1,500,000 contracts during the calendar year is 0.3495 bp/contract.

	Invoicing fee pursuant to an order	EUR 32.50/month+VAT	8.13.	Manual invoice
	Correction invoice fee	EUR 32.50/month+VAT		Manual invoice

Example – Calculation of TP market guarantee fee

One day the TP market clearing member makes the following transactions on the TP market and has the following imbalance transaction created by KELER CCP:

- 432 MWh buy transaction MGP
- 54 MWh sell transaction HEG
- 900 MWh sell MGPEGY (imbalance transaction)

Total: 486 MWh TP market transaction and 900 MWh imbalance transaction

Fee to be charged: 900 MWh × EUR 0.06/MWh + 486 MWh × EUR 0.02/MWh = EUR 63.72

Note:				
¹⁶ KELER CCP charges fees for CEEGEX and HUDEX/Gas market transactions to both the seller and the buyer.				
*KELER CCP provides a 75% fee discount for those market makers who join the quotation system of the HUDEX. The discount is validated by KELER CCP on a monthly basis until the 15th day of the following month, based on the information prescribed by HUDEX. The discount period is valid until revoked.				
	Invoice issuance fee, based on authorization	EUR 32.50/month+VAT	8.13.	Manual invoice

Example – Calculation of CEEGEX market guarantee undertaking fee

A CEEGEX market clearing member concludes the following transactions on the daily market:

- 200 MWh Buy Day-ahead Auction

- 150 MWh Sell Day-ahead Auction

Total: 350 MWh

Fee charged: 350 MWh × EUR 0.02/MWh = EUR 7.0

A HUDEX/Gas market clearing member concludes the following deals on the futures market:

- 2 contracts Sell July, 2021, monthly Base load product
- 3 contracts Buy Q2 2021 quarterly Base load product

Total: 2 × 744 MWh + 3 × 2,184 MWh = 8,040 MWh

Fee charged: 8,040 MWh × EUR 0.005/MWh = EUR 40.20

Physical settlement of futures product

- 2 contracts Sell July, 2021 monthly Base load product (first delivery date: 01.07.2021.)

Fee charged: 1,488 MWh × EUR 0.02/MWh = EUR 29.76

¹⁷ KELER CCP charges fees for energy market transactions both for sell and buy transactions. During fee calculation, the value of the quantity amount units traded per transaction is rounded to the nearest whole number.				
¹⁸ Tiered fees apply to the total turnover in physical delivery power transactions concluded by the energy market trader within the calendar year. Physical power deliveries from spot market trades and physical power deliveries from futures trades are taken into account jointly.				
¹⁹ Tiered fees apply to the total turnover of futures power trades concluded by the energy market trader in the calendar year.				

Example 1 – Calculation of energy market non-clearing service fee

An energy market clearing member concludes the following transactions at the day-ahead power market:

- 200 MWh Buy Day-ahead Auction
- 150 MWh Sell Day-ahead Auction

Total: 350 MWh

Fee charged: 350 MWh × EUR 0.016/MWh = EUR 5.60

Example 2 – Calculation of energy market non-clearing service fee

An energy market clearing member concludes the following deals on the physical futures power market:

- 2 contracts Sell July, 2021, monthly Base load product
- 3 contracts Buy Q4 2021 quarterly Base load product

Total: 2 × 744 MWh + 3 × 2,209 MWh = 8,115 MWh

Fee charged: 8,115 MWh × EUR 0.008/MWh = EUR 64.92

Physical settlement of futures product

- 2 contracts Sell July, 2021 monthly Base load product (first delivery date: 01.07.2021.)

Based on deliveries to be made:

Number of contracts × number of days × number of hours, that is 2 × 31 × 24 = 1,488 MWh

Fee charged: 1,488 MWh × EUR 0.016 /MWh = EUR 23.81

Example 3 – calculation of energy market tiered fees:

During one calendar year the joint turnover in the day-ahead market and futures transactions with physical settlement of the energy market non-clearing member reaches TWh 0.5, in this case the monthly turnover fee is calculated in line with the applicable tiers:

- from TWh 0.5 up to TWh 1 the turnover fee of each additional contracted and physical delivery MWh is EUR 0.012/MWh.
- Above TWh 1 the turnover fee of each additional contracted and physical delivery MWh is EUR 0.009/MWh.

Annual turnover: TWh 1.5 (based on day-ahead and futures physical deliveries)

Annual turnover fee (based on monthly invoices):

Up to TWh 0.5:	500,000 MWh × EUR 0.016 /MWh = EUR 8,000
From TWh 0.5 up to TWh 1:	500,000 MWh × EUR 0.012 /MWh = EUR 6,000
Over TWh 1:	500,000 MWh × EUR 0.009 /MWh = EUR 4,500

Example 4 – calculation of energy market tiered fees:

The turnover of an energy power market non-clearing member reaches TWh 0.5 during the calendar year due to open futures transaction turnover, in this case monthly turnover fee shall be charged in line with the applicable tiers

- from TWh 0.5 up to TWh 1 the turnover fee of each additional contracted open futures position MWh is EUR 0.006/MWh.
- Above TWh 1 the turnover fee of each additional contracted and physical delivery MWh is EUR 0.005/MWh.

Annual turnover: TWh 1.5 (based on open positions)

Annual turnover fee (based on monthly invoices):

Up to TWh 0.5:	500,000 MWh × EUR 0.008 /MWh = EUR 4,000
From TWh 0.5 up to TWh 1:	500,000 MWh × EUR 0.006 /MWh = EUR 3,000
Above TWh 1:	500,000 MWh × EUR 0.005 /MWh = EUR 2,500
